DETAILED ACTION

Election/Restrictions

Applicant's election of Group I claims 1-33 in the reply filed on June 14, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of claims 34 to 40 are non-elected without traverse. Accordingly, claims 34-40 have been cancelled.

Allowable Subject Matter

Claims 1-33 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the claims define over the prior art. The cited prior art does not disclose or suggest the combined limitation of a process to form a double-gate field effect transistor inter alia the limitations "...forming first metal film first metal material on the first dummy electrode; conducting a thermal treatment at a first temperature to substitute the first dummy electrode with a first electrode of the first metal material or a compound of the first metal material; forming a second metal film of a second metal material on the second dummy electrode; and conducting a thermal treatment at a second temperature, which lower than the first temperature and at which an interdiffusion of constituent materials between the first electrode and the second metal film does not take place, substitute the
